CAREER OBJECTIVE

Career Objective

As an enthusiastic and highly skilled software engineer, I possess excellent communication skills to accurately present ideas, collaborate with team members, and coordinate technical solutions. With superior problem-solving and analytical skills, I can identify and overcome challenges efficiently without compromising performance. I am seeking a dynamic company where I can continue to learn, grow, and develop my engineering skills while contributing to a culture of innovation and excellence.

SKILLS

Frontend Development <i>HTML, CSS, JavaScript</i>	Frontend Frameworks & Libraries <i>React, Angular</i>	Frontend UI & State Management <i>Axios, Redux/NgRx, Material UI</i>
Backend Development <i>Kotlin, Java, Python, C, PHP</i>	Backend Frameworks & Libraries <i>Quarkus, Springboot, ZK, Vaadin</i>	API Integration & Management <i>Developing and Utilizing REST APIs</i>
Cloud & Infrastructure <i>AWS, Azure, Docker, Kubernetes</i>	Database <i>Oracle, PostgreSQL, MySQL</i>	Testing <i>Postman, Selenium, SoapUI</i>
Internationalization <i>i18n</i>	Project Management <i>Agile</i>	Data Formats and Serialization <i>JSON, XML, CSV</i>
Design and Prototyping Tools <i>Adobe Photoshop</i>		

WORK EXPERIENCE

2024/07 – Present	DevOps Engineer EY	Athens, Greece
DevOps Engineer with experience in designing and maintaining cloud infrastructure and CI/CD pipelines for an insurance platform on Microsoft Azure . Skilled in managing Kubernetes (AKS) clusters, automating deployments, and ensuring system reliability, security, and compliance in a regulated industry.		
- Provisioned and managed cloud infrastructure on Azure using Infrastructure as Code (Terraform/Bicep) - Managed and optimized Azure Kubernetes Service (AKS) clusters for containerized microservices - Built and maintained CI/CD pipelines using Azure DevOps for automated build, test, and deployment - Implemented monitoring and alerting using Azure Monitor, Application Insights - Enforced security best practices including secret management (Key Vault), RBAC, and network policies - Collaborated with development teams to ensure cloud-native, container-ready application delivery		

APT Information Systems ☑

- **Programming Languages:** Experienced in Java and Kotlin, applying object-oriented programming (OOP) principles.
- **Framework Usage:** Utilized Quarkus and Spring Boot for building applications.
- **API Development:** Developed RESTful APIs using JAX-RS within Quarkus and Spring Boot projects.
- **Data Access:** Implemented data access layers using Hibernate for Spring Boot and Panache for Quarkus.
- **Cross-language Skills:** Common Concepts with object-oriented programming (OOP) languages, such as C#
- **Microservices and Containers:** Docker for Microservices Architecture
- **Testing and Quality:** Maintained code quality through testing practices.
- **CI/CD Involvement:** Contributed to CI/CD pipelines for automated testing and deployment.
- **Documentation and Collaboration:** Collaborated with cross-functional teams, offering technical insights while also maintaining documentation to facilitate knowledge transfer and onboarding processes.

2019/10 – 2021/02

Academic Tutor

Hellenic Mediterranean University ☑

Name of unit or department: Electrical & Computer Engineering**Business or sector:** Education

- (ECE-102) Scientific Programming with Python Language
- (ECE-136) Object Oriented Programming
- (TP-122) Information Systems Security
- (TP-105) Modern topics in Informatics
- (TP-338) Programming Languages
- (TP-313) Algorithms
- (TP-132) Databases

2019/05 – present

Volunteer Software Engineer and Junior Research Associate

Heraklion, Greece

Artificial Intelligence & Systems Engineering Lab (AISE) ☑

Case study on Knowledge-Based Systems:

- Implementing a Probabilistic Logic program that predicts COVID-19 Infection and the Possibility a patient to Recover

Case study on Automotive and Security:

- Implementing an Intrusion Detection between critical and non-critical CAN buses via a Gateway
- Implementing an Authenticating mechanism on a multi-CAN system

2018/04 – 2018/09

Practical Training

Heraklion, Greece

Computer System Support Laboratory

 EDUCATION

2019/10 – 2021/08

Master of Science in Informatics Engineering

Heraklion, Greece

Hellenic Mediterranean University ☑

- **Thesis:** Self-Sovereign Identity (SSI) Management and Access Control
- **Grade: 10.0/10.0**
- **Final grade : 9.38/10.0**

- **Thesis:** An Android application designed to guide daily activities
- **Grade:** 9.8/10.0
- **Final grade:** 7.42

**CERTIFICATES****Certified Vaadin 24 Developer**

Credential ID: 5a033b87-83e3-491e-b28f-ba14a3a3dc79

Microsoft Certified: Azure Administrator Associate

Credential ID: 60626A10BBAAAAF1

AWS Certified Cloud Practitioner

Credential ID: 0596115d166442fc96f08325de4f2992

Oracle Certified Professional: Java SE 17 Developer

Credential ID: 100072762OCPJSE17

Certified Vaadin 14 Developer

Credential ID: #9e156ab3-a996-4365-9694-871c6ee6016d

**AWARDS****HelloAIRIS**

EIT Health

2020/08/24

Participated in HelloAIRIS - Artificial Intelligence Online Training, between June 15th and August 24th 2020, organized by GE Healthcare, KTH Royal Institute of Technology and LEITAT Technological Center
